

Our Story

Eleanor Walker and Renee McGinnis

Just wanted to take the time to thank the entire staff for the exceptional work they do by helping our loved ones have a safe and fulfilled day outside of their homes. Two years ago, my mom and I walked into the center looking for a place that could meet her needs and provide us a sense of security that she would be well taken care of while I was at work. We found that and so much more at ADC. After meeting with the staff and taking the tour, my Mom decided without hesitate that this could be a place that she would enjoy. She started with just two days a week, and those two days turned into every day. Each day she returns home with a smile and great joy. Despite changes in her schedule the center is always flexible and extremely accommodating.

The Staff at ADC are simply amazing. It is refreshing each time we arrive, to be greeted with a hearty hello, a gentle touch and to be welcomed in the family. Which I believe, truly describes ADC. They are the extended families for reach and every member. When my Mom leaves her home she does not arrive just at a center, but at a place that truly cares for her and wants to create an environment for which she can feel comfortable and loved. I love that the staff remains constant in the professionalism, care, and love, even through their own circumstances, their patience with others never fails.

It is wonderful that ADC offers so many exciting programs to their members by keeping them involved in mind and body. My Mom's favorite activity is simply relaxing in the living room during conversation times. She loves listening to the discussions and laughing with each response. This helps so much since my mom suffers from Aphasia after her stroke. She loves to communicate and this keeps her connected even though she struggles to find her own words.

Being at ADC has increased her independence and has helped to improve her health and stamina. I am so grateful that ADC is a place that is affordable, enriching, and a safe haven for those we love so deeply.

Renee McGinnis
